There are 88 hospitals in Nebraska. **Only one** specializes in rehabilitation.

OTHER HOSPITALS SAVE LIVES. WE REBUILD THEM.

Briana was 21 when her spine was fractured in an auto accident. When doctors told her to prepare for life in a wheelchair, she said, "No."

She came to Madonna Rehabilitation Hospital, the only hospital in Nebraska that specializes in one area of advanced medicine: rehabilitation. Today Briana walks her rounds as a nurse healing others. And helping us all to believe in what's possible.

A TEAM OF TRUE SPECIALISTS.

Madonna's doctors, therapists and nurses have devoted their careers to rehabilitation and take pride in being among the top in their fields. Our rehabilitation teams are united in one cause: to achieve the best outcome for those recovering from catastrophic injury or illness. Every day, each program team meets to discuss the progress of their patients – progress that helps them rebuild their lives.

This 360-degree approach means our patient satisfaction scores are among the highest in our field, and our outcomes are ranked among the best in the nation.

YOU HAVE A CHOICE.

Madonna is the only hospital in the country that has all levels of rehabilitation under one roof, ensuring consistent quality care. If you or someone you love is ever faced with the "What now?" that comes after catastrophic injury or illness, insist on the very best in care, from Madonna – the experts setting new standards for excellence.

CHOOSE A BETTER OUTCOME. CHOOSE MADONNA.
