Preferred format: Any

Objective:

Following this presentation, participants will be able to compare and contrast the kinematic and acoustic characteristics of articulation within a novel articulatory-acoustic working space for typically functioning speakers and individuals with dysarthria, and identify potential experimental manipulations for eliciting adaptive changes in articulation that may support neurorehabilitation.

Program Planners/Instructional Personnel Relationship Disclosure Form

To ensure balance, independence, objectivity and scientific rigor in all CE courses, the Nebraska Speech-Language and Hearing Association (NSLHA) requires program planners/instructional personnel to disclose information regarding any relevant financial and non-financial relationships related to course content prior to and during course planning.
