Preferred format: Any

Objective:

Following this presentation, participants will be able to characterize articulatory kinematic differences between alternating and sequential motion rate diadochokinesis and discuss implications for the assessment of speech-motor performance.

Program Planners/Instructional Personnel Relationship Disclosure Form

To ensure balance, independence, objectivity and scientific rigor in all CE courses, the Nebraska Speech-Language and Hearing Association (NSLHA) requires program planners/instructional personnel to disclose information regarding any relevant financial and non-financial relationships related to course content prior to and during course planning.
