First Name	Last Name	Bio
Meghan	Darling White	Ph.D., CCC-SLP, is a postdoctoral trainee at the Waisman Center at the University of Wisconsin-Madison. Meghan received her Masters and Doctorate from Purdue University. She is interested in the physiologic deficits in the speech subsystems that contribute to reduced speech naturalness and intelligibility in individuals with motor speech disorders. In particular, she is interested in how respiratory muscle strength training may improve speech production in adults with Parkinson's disease and children with Cerebral Palsy.
Jessica	Huber	Ph.D., CCC-SLP, is an Associate Professor at Purdue University in the Department of Speech, Language, and Hearing Sciences. Jessica received her Masters and Doctorate from the University at Buffalo. Her research emphasis is the effects of aging and motor disorders on speech production, particularly speech breathing. Her current research focus is the effects of Parkinson's disease on vocal loudness and cognition. In particular, she is developing treatments for dysarthria associated with Parkinson's disease. She is also currently examining how typically aging individuals and people with Parkinson's disease respond to everyday dual-task environments.

Daniel

Barnes

B.S., is a masters student at Purdue University in the Department of Speech, Language, and Hearing Sciences. He is interested in the study of prosody. In particular, he is examining changes in prosody due to normal aging.

## Program Planners/Instructional Personnel Relationship Disclosure Form

To ensure balance, independence, objectivity and scientific rigor in all CE courses, the Nebraska Speech-Language and Hearing Association (NSLHA) requires program planners/instructional personnel to disclose information regarding any relevant financial and non-financial relationships related to course content prior to and during course planning.

**Full Name:**     **Meghan Darling White**    

**Email Address:**     **mdwhite5@wisc.edu**    

**Presentation Title:**     **Syntactic disambiguation in individuals with Parkinson's disease**    

---

### HIPAA REQUIREMENTS

To comply with the Health Insurance Portability and Accountability Act (HIPAA), we ask that all program planners and instructional personnel insure the privacy of their patients/clients by refraining from using names, photographs, or other patient/client identifiers in course materials without the patient's/client's knowledge and written authorization.

I am in compliance with these policies:     MDW     (INITIAL HERE)

---

**Relevant financial relationships** are those relationships in which the individual benefits by receiving a salary, royalty, intellectual property rights, gift, speaking fee, consulting fee, honoraria, ownership interest (e.g., stocks, stock options, or other ownership interest, excluding diversified mutual funds), or other financial benefit. Financial relationships can also include "contracted research" where the institution gets the grant and manages the funds and the individual is the principal or named investigator on the grant.

Do you have relevant financial relationships to disclose?

X  No  Yes, if yes complete *Financial Relationship Disclosure Form*

**Relevant non-financial relationships** are those relationships that might bias an individual including any personal, professional, political, institutional, religious or other relationship. May also include personal interest or cultural bias.

Do you have relevant non-financial relationships to disclose?

X  No  Yes, if yes complete *Non-Financial Relationship Form*.

---

I attest that the information in this disclosure is accurate at the time of completion and I agree to notify NSLHA of any changes to this information between now and the presentation.

Signature     Meghan Darling White     Date     08/26/13
