

MADONNA REHABILITATION SPECIALTY HOSPITAL LINCOLN (MRS HL)

Madonna Rehabilitation Specialty Hospital Lincoln (MRS HL) is appropriate for individuals who require intense medical management for a longer period of time than generally occurs in the acute care hospital. Unlike most specialty hospitals, Madonna has chosen to utilize a rehabilitation approach to care for the individuals served.

AVERAGE THERAPY HOURS

Last year, people served in MRS HL had an average of **2 hours** of physical, occupational, speech and/or neuro psychology per day delivered by licensed therapists. In addition to therapies, patients receive rehabilitation nursing care 24 hours per day, seven days a week.

As appropriate, patients may also receive respiratory and nutrition therapy.

LENGTH OF STAY

Individuals at MRS HL stayed an average of **38** days last year.

PATIENT SATISFACTION

87% of patients rated their overall experience as excellent or good and **88%** said they would definitely recommend MRS HL to family or friends.

The average age was **64** years old.

MADONNA REHABILITATION SPECIALTY HOSPITAL LINCOLN (MRSHL)

HOW OFTEN WILL I SEE A DOCTOR?

You will be seen daily by a hospital physician, and as needed by physicians who specialize in rehabilitation, pulmonology, neurology, cardiology, wound care or other specialty areas.

VENTILATOR WEANING

75% of those who were admitted on a mechanical ventilator weaned in an average of **19** days.

UNPLANNED TRANSFERS TO ACUTE CARE

Madonna is a hospital with clinical staff on-site 24 hours a day, seven days per week.

Last year **43** (10%) patients had unplanned transfers to acute care. Most of these returned to MRSHL to complete their program. According to the latest Medicare data, MRSHL is in the top 3.9% of specialty hospitals in the United States for preventing readmissions to acute care within 30 days of discharge.

ACCREDITATION

MRSHL has accreditation from the Commission on Accreditation of Rehabilitation Facilities (CARF) as a Comprehensive Integrated Inpatient Rehabilitation Program.

DISCHARGE TO COMMUNITY OR ACUTE REHABILITATION

58% of patients were discharged directly home or to an acute rehabilitation hospital to continue their recovery.
