**PATIENT SATISFACTION**

- **Rehabilitation Day Program (RDP)**—an intense, coordinated outpatient program.
- **Traditional Outpatient (OP)**—Physical, Occupational and/or Speech Therapy 1-3 times per week. Rehabilitation Psychology available.
- **Specialty Clinics and Assessments**—specialized services focused on areas such as vision, swallowing, wheelchair mobility, communication or long term follow-up.

**AMOUNT OF THERAPY**

Treatment plans are designed to meet individual needs and insurance coverage. The following illustrates the average number of visits received last year:

<table>
<thead>
<tr>
<th></th>
<th>RDP</th>
<th>OP</th>
</tr>
</thead>
<tbody>
<tr>
<td>Physical Therapy</td>
<td>16</td>
<td>11.8</td>
</tr>
<tr>
<td>Occupational Therapy</td>
<td>17.5</td>
<td>12.5</td>
</tr>
<tr>
<td>Speech Therapy</td>
<td>16.6</td>
<td>10.7</td>
</tr>
</tbody>
</table>

As appropriate, people with brain injury also received recreational therapy, social work services, rehabilitation nursing, rehabilitation psychology and/or nutrition services as part of RDP.

**LENGTH OF PROGRAM**

Individuals with brain injury attended RDP for an average of **17.3** days.

**EXPECTED OUTCOMES**

While individual results vary, last year most individuals with brain injury functioned at an independent level with or without using adaptive equipment at the time of discharge.

**PATIENT SATISFACTION**

- **94.5%** of people in RDP/OP with brain injury rated their overall experience as excellent or good.
- **92.2%** said they would “definitely” recommend Madonna TherapyPlus to family and friends.
LIFE AFTER REHABILITATION

Individuals in RDP are encouraged to participate in activities which promote community re-entry and resumption of life roles, including:

• Independent Living Skills Training
• Adaptive Sports & Recreation
• Transitions Group (community living, advocacy, adjustment)
• Work Re-Entry

FOLLOW-UP 6 MONTHS AFTER DISCHARGE

Many individuals will require intermittent outpatient therapy after their discharge from RDP. Depending upon where you live, this could occur here or in your home community. Madonna contacts patients 6-12 months after inpatient discharge. Here are some of the reported outcomes:

- 97.4% maintaining gains
- 27.2% unplanned re-hospitalization due to illness
- 41% returned to work
- 89% returned to school
- 86.9% driving or independently managing public transportation

ACCREDITATION

Madonna Rehabilitation Hospitals are accredited by CARF, the Commission on Accreditation of Rehabilitation Facilities, as an Outpatient Medical Rehabilitation Program and Brain Injury Specialty Program.
