

# MADONNA REHABILITATION SPECIALTY HOSPITAL LINCOLN (MRSHL)

Madonna Rehabilitation Specialty Hospital–Lincoln (MRSHL) is appropriate for individuals who require intense medical management for a longer period of time than generally occurs in the acute care hospital. Unlike most specialty hospitals, Madonna has chosen to apply a rehabilitation approach to care for the individuals served.

## AVERAGE THERAPY HOURS

Last year, people served in MRSHL had an average of **2.1 hours** of physical, occupational, speech and/or rehabilitation psychology per day delivered by licensed therapists. In addition to therapies, patients receive rehabilitation nursing care 24 hours per day, seven days a week.

As appropriate, patients may also receive respiratory and nutrition therapy.

## LENGTH OF STAY

Individuals at MRSHL stayed an average of **34** days last year.

## PATIENT SATISFACTION

**99%** of patients rated their overall experience as excellent or good and **91%** said they would definitely recommend MRSHL to family or friends.

## 410 NUMBER OF PEOPLE SERVED

Program	People Served
Stroke	114
Pulmonary	202
Cardiac	14
Burn	5
Spinal Cord Injury	88
Complex	270
Brain Injury	78
Cancer	42

*People served may fall into multiple programs*

The average age was **65** years old.

### HOW OFTEN WILL I SEE A DOCTOR

You will be seen daily by a hospital physician, and as needed by physicians who specialize in rehabilitation, pulmonology, neurology, cardiology, wound care or other specialty areas.

### UNPLANNED TRANSFERS TO ACUTE

Madonna is a hospital with clinical staff on-site 24 hours a day, seven days per week.

Last year **37** (8%) patients had unplanned transfers to acute care. Most of these returned to MRSHL to complete their program. According to the latest Medicare data, MRSHL is in the top 3% of long term acute care hospitals in the United States for preventing readmissions to acute care within 30 days of discharge.

### DISCHARGE TO HOME/COMMUNITY

**46%** were discharged directly home or to an acute rehabilitation hospital to continue their recovery.

### VENTILATOR WEANING

**74%** of those who were admitted on a mechanical ventilator weaned in an average of **13.8** days.

### ACCREDITATION

MRSHL has accreditation from the Commission on Accreditation of Rehabilitation Facilities (CARF) as a Comprehensive Integrated Inpatient Rehabilitation Program, Brain Injury Specialty Program, Spinal Cord System of Care, and Stroke Specialty Program.
