

Madonna Rehabilitation Specialty Hospital—Omaha (MRSHO) is appropriate for individuals who require intense medical management for a longer period of time than generally occurs in the acute care hospital. Unlike most specialty hospitals, Madonna has chosen to apply a rehabilitation approach to care for the individuals served.

### AVERAGE THERAPY HOURS

Last year, people served in MRSHO had an average of **2.0 hours** of physical, occupational, speech and/or rehabilitation psychology per day delivered by licensed therapists. In addition to therapies, patients receive rehabilitation nursing care 24 hours per day, seven days a week.

As appropriate, patients may also receive respiratory and nutrition therapy as well.

**438** NUMBER OF PEOPLE SERVED

Program	People Served
Stroke	109
Pulmonary	103
Cardiac	14
Complex	340
Brain Injury	74
Cancer	88

*People served may fall into multiple programs*

The average age was **67** years old.

### LENGTH OF STAY

Individuals at MRSHO stayed an average of **26** days last year.

### PATIENT SATISFACTION

**99%** of people rated their overall experience as excellent or good and **91%** said they would definitely recommend MRSHO to family or friends.

## HOW OFTEN WILL I SEE A DOCTOR

You will be seen daily by a hospital physician, and as needed by physicians who specialize in rehabilitation, pulmonology, neurology, cardiology, wound care or other specialty areas.

## UNPLANNED TRANSFERS TO ACUTE

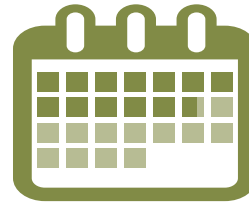

Madonna is a hospital with clinical staff on-site 24 hours a day, seven days per week.

Last year **91** (19%) of patients had unplanned returns to acute care. Most of these returned to MRSHO to complete their program. According to the latest Medicare data, MRSHO is in the top 7.4% of long term acute care hospitals in the United States for preventing readmissions to acute care within 30 days of discharge.

## DISCHARGE TO HOME/COMMUNITY

**51%** were discharged directly home or to an acute rehabilitation hospital to continue their recovery.

## VENTILATOR WEANING

**76%** of those who were admitted on a mechanical ventilator weaned in an average of **15** days.

## ACCREDITATION

MRSHO has accreditation from the Commission on Accreditation of Rehabilitation Facilities (CARF) as a Comprehensive Integrated Inpatient Rehabilitation Program, Brain Injury Specialty Program and Stroke Specialty Program.
