The average age was **59.9** years old, including **7** children and adolescents.

Age	# Served
0-18	7
19-34	3
35-65	54
65+	54

WHERE PATIENTS COME FROM

Hospitals throughout the region refer patients with cancer to Madonna. Last year, **90.7%** of patients with cancer came from Omaha and Lincoln.

AVERAGE THERAPY HOURS

Last year, people with cancer had an average of **15-20 hours** of physical, occupational, speech, rehabilitation psychology, and/or recreation therapy 5-7 days a week, delivered by licensed therapists.

As appropriate, patients may also receive respiratory and nutrition therapy.

DISCHARGE TO HOME/ASSISTED LIVING

67% of people with cancer at our acute rehabilitation hospital in Omaha discharged to home or to an assisted living facility.

PATIENT SATISFACTION

98% of people with cancer rated their overall experience as excellent or good.

MADONNA (MRH) INPATIENT CANCER PROGRAM OUTCOMES

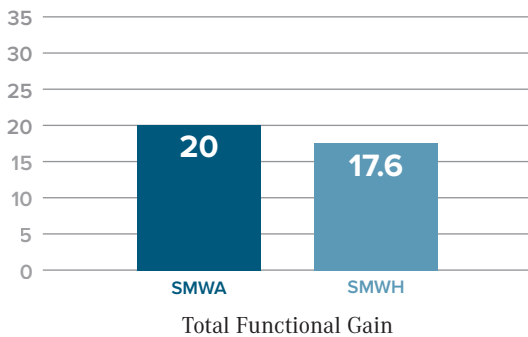

TRANSFERS TO ACUTE

Madonna is a hospital with clinical staff on-site 24 hours a day, seven days per week. Clinical staff are trained to respond to any medical emergency.

Last year **20.3** percent of acute rehabilitation patients with cancer returned to the hospital for either planned – such as additional treatment – or unplanned reasons.

INDEPENDENCE LEVEL

Patients with cancer at Madonna made gains as measured by the “Self-Care and Mobility Activities” tool. This progress is calculated by rating activities such as mobility, self-cares, communication and cognition on a scale of 1-6 and totaling the categories. We report this data in two categories: self-care/mobility/walk (SMWa) and self-care/mobility/wheelchair (SMWh).

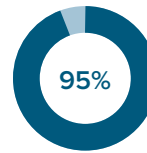

LENGTH OF STAY

Individuals with cancer stayed at Madonna’s acute rehab an average of **15.7** days.

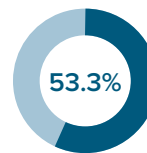

FOLLOW UP AT 6 MONTHS AFTER DISCHARGE

100% of people with cancer state that they maintained or improved since their discharge in areas such as self-cares, mobility and communication.

95% of people with cancer state they have seen their primary care physician and/or oncologist since discharge.

53.3% of people with cancer have returned to work or school.

100% of people with cancer state they have returned to activities or hobbies since discharge.
