

CANCER REHABILITATION PROGRAM

OUTPATIENT / REHABILITATION DAY PROGRAM
OMAHA CAMPUS

25

NUMBER OF PEOPLE SERVED

IN ONE OR MORE OF THE FOLLOWING AREAS

- **Rehabilitation Day Program (RDP)**—an intense, coordinated outpatient program.
- **Traditional Outpatient (OP)**—Physical, Occupational and/or Speech Therapy 1-3 times per week. Rehabilitation Psychology available.
- **Specialty Clinics and Assessments**—specialized services focused on areas such as vision, swallowing, wheelchair mobility, communication or long term follow-up.

The average age was **44.4** years old.

Age	# Served
0-18	9
19-34	1
35-65	5
65+	10

AMOUNT OF THERAPY

Treatment plans are designed to meet individual needs and insurance coverage. The following illustrates the average number of visits received from last year.

AMOUNT OF THERAPY (CONT.)

	RDP	OP
Physical Therapy	16	30.2
Occupational Therapy	16	29.7
Speech Therapy	0	17.2

As appropriate, patients with cancer also received recreational therapy, social work services, rehabilitation nursing, rehabilitation psychology and/or nutrition services as part of RDP.

LENGTH OF PROGRAM

Individuals with cancer attended RDP for an average of **11.5** days.

EXPECTED OUTCOMES

While individual results vary, last year, most people with cancer functioned at a supervised level with use of adaptive equipment at the time of discharge.

PATIENT SATISFACTION

- **100%** of people in RDP/OP with cancer rated their overall experience as excellent or good.
- **100%** said they would “definitely” recommend Madonna TherapyPlus to family and friends.

UNPLANNED TRANSFERS TO ACUTE CARE

Last July, **1** individual with cancer was unexpectedly admitted back to an acute care hospital while receiving outpatient services.

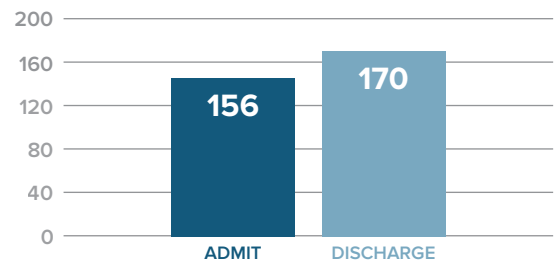

LIFE AFTER REHABILITATION

Individuals in RDP are encouraged to participate in activities that promote community re-entry and resumption of life roles, including:

- Independent Living Skills Training
- Adaptive Sports & Recreation
- Transitions Group (community living, advocacy, adjustment)
- Work Re-Entry

INDEPENDENCE LEVEL

Patients with cancer in Madonna’s Rehabilitation Day Program made progress toward independence as measured by the Functional Assessment Measure (FAM). Activities including transfers, dressing, community access and locomotion are rated on a 1-7 scale and totaled.

Total Change—Admission to Discharge

ACCREDITATION

Madonna Rehabilitation Hospitals are accredited by CARF, the Commission on Accreditation of Rehabilitation Facilities, as an Outpatient Medical Rehabilitation Program and Cancer Specialty Program for adults and pediatrics in Omaha.
