

# BRAIN INJURY REHABILITATION PROGRAM

OUTPATIENT / REHABILITATION DAY PROGRAM  
LINCOLN CAMPUS

**645**

**NUMBER OF PEOPLE SERVED**  
IN ONE OR MORE OF THE FOLLOWING AREAS

- **Rehabilitation Day Program (RDP)**—an intense, coordinated outpatient program.
- **Traditional Outpatient (OP)**—Physical, Occupational and/or Speech Therapy 1-3 times per week. Rehabilitation Psychology available.
- **Specialty Clinics and Assessments**—specialized services focused on areas such as vision, swallowing, wheelchair mobility, communication or long term follow-up.

**645** people with a brain injury were served by RDP/OP in Lincoln. **548** (84%) had a traumatic brain injury and the remaining **95** (14.7%) had a non-traumatic brain injury.

The average age was **43** years old.

## AMOUNT OF THERAPY

Treatment plans are designed to meet individual needs and insurance coverage. The following illustrates the average number of visits received last year:

	RDP	OP
Physical Therapy	14.2	9.8
Occupational Therapy	14.5	12.1
Speech Therapy	14	8.5

As appropriate, people with a brain injury also received recreational therapy, social work services, rehabilitation nursing, rehabilitation psychology and/or nutrition services as part of RDP.

## LENGTH OF PROGRAM

Individuals with a brain injury attended RDP for an average of **19.8** days.

## EXPECTED OUTCOMES

While individual results vary, last year most individuals with a brain injury functioned at an independent level with or without using adaptive equipment at the time of discharge.

# BRAIN INJURY REHABILITATION PROGRAM

## OUTPATIENT / REHABILITATION DAY PROGRAM - LINCOLN CAMPUS

### PATIENT SATISFACTION

- **96.56%** of people in RDP/OP with a brain injury rated their overall experience as excellent or good.
- **96.43%** said they would “definitely” recommend Madonna TherapyPlus to family and friends.

### UNPLANNED TRANSFERS TO ACUTE CARE

Last year **3** individuals with a brain injury were unexpectedly admitted back to an acute care hospital while receiving outpatient services.

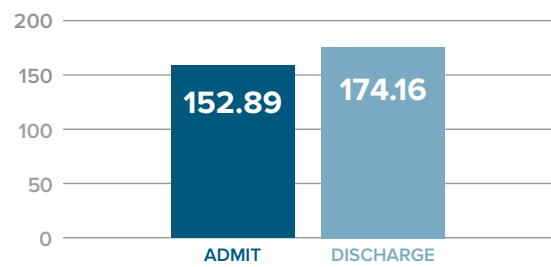

### LIFE AFTER REHABILITATION

Individuals in RDP are encouraged to participate in activities that promote community re-entry and resumption of life roles, including:

- Independent Living Skills Training
- Adaptive Sports & Recreation
- Transitions Group (community living, advocacy, adjustment)
- Work Re-Entry

### INDEPENDENCE LEVEL

Patients with a brain injury in Madonna’s Rehabilitation Day Program made progress toward independence as measured by the Functional Assessment Measure (FAM). Activities including transfers, dressing, community access and locomotion are rated on a 1-7 scale and totaled.

Total Change—Admission to Discharge

### ACCREDITATION

Madonna Rehabilitation Hospitals are accredited by CARF, the Commission on Accreditation of Rehabilitation Facilities, as an Outpatient Medical Rehabilitation Program and Brain Injury Specialty Program.
